*we keep
you warm
and save
you money*

At Maine Heating Solutions, we don't want to just deliver fuel to heat your house, we want to help you use fuel efficiently so you can *save money and enjoy your house.*

We specialize in:

- Competitive Pricing
 - Energy Conservation
 - Comprehensive Savings Plans
 - *Creative Thinking*
-

basics

We Deliver

- Fuel Oil
- Kerosene
- Ultra-Low-Sulfur Diesel
- Propane

We Install

- Oil Systems
- Propane Systems
- Natural Gas Equipment

We offer Additives

Fuel additives not only increase the performance of your fuel, but will also clean and protect your heating system. We offer a variety and let you choose if they are right for you.

Water Filtration

We also install water filtration equipment and wells for municipal water systems.

strategies

Tune Ups:

You don't need to spend thousands of dollars or sacrifice comfort in order to reduce energy costs. In many cases a tune up from Maine Heating Solutions will reveal key areas that, when adjusted, save money.

Money Saver Program:

Our comprehensive Money Saver Program helps you take a holistic look at your energy consumption and can reveal some surprising, money saving results.

Our program includes:

- **Detailed Interview**

An in-depth discussion with you allows us to determine your goals and help us to understand how you use your heating and hot water systems.

- **System Inspection**

A full inspection of your heating and hot water systems allows us to evaluate what you are using to heat your house.

- **House Evaluation**

An Evaluation of your house's structure helps us see if there are areas that could improve home performance.
